## Access Commerce Reports Second Quarter 2006 Revenue

**Chicago, Illinois and Toulouse, France, August 14, 2006** - Access Commerce (FR0000074247), a leading provider of multichannel commerce solutions, today announced revenue figures for the second quarter of fiscal 2006:

(M€)	Q2 2006	Q2 2005
Cameleon Activity	1.67	1.47
Integration Activity	0.92	0.96
<b>Total</b>	<b>2.59</b>	<b>2.43</b>

(provisional - non audited)

Access Commerce revenue totaled 2.59M€ in the second quarter of 2006, a 7% increase compared to 2.43M€ over the same period in 2005.

- Cameleon activity for the quarter increased 14% compared to the second quarter of 2005, and included license sales from companies in the industrial, distribution and service markets. Notable customer transactions included SDMO, the world's third largest manufacturer of electrical generators; Souriau, manufacturer of connectors and interconnect systems; Manutan International, Europe's leading distributor of office and industrial equipment; and IDEXX Laboratories, a provider of information technology to support veterinary practices.

In Europe, Cameleon activity has been reinforced with the consolidation of the Exsyde acquisition beginning April 1, 2006 (impacting Q2 revenue by 0.28M€). In North America, the comparison with the second quarter of 2005 is less favorable, due to the signing of a major deal in June 2005 and adjustments to the marketing and sales teams in Q1 2006, for is expected to produce positive effects in the second half of 2006.

The average Cameleon license transaction has increased by 35% over the first half of 2006 as compared to 2005 figures.

- Integration activity was down slightly (-4% for the period), however is in the process of reversing the trend as demonstrated by two major deals that were won at the end of June in conjunction with Microsoft Dynamics AX. These two successes confirm the positioning of Access Commerce with this new ERP offering.

## Access Commerce Reports Second Quarter 2006 Revenue

"The integration of Exsyde into the Company is taking place as we expected," noted Jacques Soumeillan, President and CEO of Access Commerce. "Indeed, we see the materialization of the potential to cross-sell Cameleon with Exsyde customers and for the Exsyde offering with Cameleon customers, in Europe as well as in the United States. As of today, at least seven opportunities have arisen from joint customers. The ability to cross-sell across our installed bases has produced two immediate positive effects: a reduction in our sales cycles and a decrease in the cost of sales. Convinced with the effectiveness of this growth model, we launched a capital increase last month to obtain additional financing to fuel our ambitious external growth strategy."

"In parallel, our organic growth, which is still sustained by our historic focus on the manufacturing market, is now also leveraging new sectors of activity in the distribution and services markets, as the sales to Manutan and IDEXX demonstrate this quarter," continued Mr. Soumeillan. "In accordance with our initial plans, we have invested in resources to succeed in these new markets, as we have doubled our sales and marketing teams since the beginning of this year in Europe as well as in North America. Finally, in order to accompany and stimulate our expansion, we are developing new alliances especially with Microsoft Dynamics AX and Salesforce.com.

The investments in our business, added to the state of our business portfolio compared to the same period in 2005 and reinforced by our recent agreements with some major alliance partners, strengthen my optimism and conviction that a new growth cycle has begun for Access Commerce."

First half 2006 results will be published on September 27, 2006 after market close.

This press release may contain statements relating to future prospects of the Company based on assumptions and forecasts made by Executive Management, as well as information in its possession. The said statements include an element of risk and uncertainty and the assumptions made may differ radically from actual Company performance. Readers of this press release should therefore refrain from taking these statements as to future prospects as certainties.

### About Access Commerce

#### Access Commerce is a leading provider of Multichannel Commerce.

Access Commerce helps manufacturing, distribution, retail and service companies sell products and services through direct, indirect, call center and Internet sales channels. The Cameleon Commerce Suite drives business efficiency by aggregating, standardizing and syndicating product information across supply and demand chains. Cameleon simplifies key steps in the Lead-to-Order-to-After-Sales process by optimizing core business functions: e-commerce, electronic catalog and guided selling, product and service configuration, advanced pricing and promotions, quote and proposal generation, and order management. Employees, channel partners and customers use Cameleon to eliminate errors and non-value added activities, decrease cycle times and improve customer satisfaction, resulting in increased revenue and a reduction in sales and operational costs. Access Commerce customers include AREVA, Eaton Corporation, Eiffage Construction, Invacare, Leroy Merlin, Manitou, Mitsubishi Caterpillar Forklift Europe (MCFE), Perceptron, Perkins Engines, Saint-Gobain, Schneider Electric, ThyssenKrupp, Total and X-Rite.

Access Commerce is headquartered in Toulouse, France and Chicago, Illinois and has offices located in North America, France and Germany.
