**Cameleon from Access Commerce Achieves
“Powered by SAP NetWeaver®” Status**

Enables Customers to Further Optimize Their Investments in SAP® Solutions

Chicago, Illinois and Toulouse, France, September 14, 2006 - Access Commerce (Euronext: 7424), a leading provider of multichannel commerce solutions, today announced that Cameleon 4.3GA has achieved “Powered by SAP NetWeaver®” status from SAP AG (NYSE: SAP). The integration provided by Cameleon will enable companies to rapidly deploy Cameleon within their SAP NetWeaver platform-based environments and to access Cameleon functionality within the SAP NetWeaver Portal.

Selected by a wide range of enterprises worldwide, Cameleon from Access Commerce helps companies optimize complex selling and ordering processes by addressing critical requirements for product information management, e-commerce, configuration, pricing, quoting and order management across any sales channel (direct, call center, B2B, B2C, B2B2C). With Cameleon, companies are able to eliminate order errors, improve revenues and profit margins, eliminate non valued-added activities from commerce processes and become easier to do business with.

"We are delighted to have attained Powered by SAP NetWeaver status," said Kurt Haller, Executive Vice President of Access Commerce. "There is a reason why we selected the name Cameleon for our solution. Just like the reptile, Cameleon software is able to readily adapt to its environment, whether it be different product types, commerce processes, business models or in this case different technologies. Customers can now use Cameleon multichannel commerce solutions on the same platform as their SAP® solutions, speeding deployment, reducing integration cost and risk, and therefore lowering the total cost of ownership (TCO)."

To achieve Powered by SAP NetWeaver status, Access Commerce has demonstrated that Cameleon can be successfully deployed on a J2EE-based deployment of the SAP NetWeaver Application Server Release 6.40 and is accessible via the SAP NetWeaver Portal. This deployment has been tested and certified by the SAP Integration & Certification Center.

Access Commerce’s Cameleon is powered by SAP NetWeaver. The SAP NetWeaver platform powers the mySAP™ Business Suite family of applications, SAP xApps™ packaged composite applications, and partner solutions. SAP NetWeaver unifies integration technologies into a single platform and is preintegrated with business applications, enabling change and reducing the need for custom integration.

“We have a number of customers today running SAP solutions,” added Jacques Soumeillan, President & CEO of Access Commerce. “As an independent software vendor with Powered by SAP NetWeaver status, we will gain further visibility within the SAP solution-based ecosystem, which includes many companies in our key markets of manufacturing, distribution and services. Cameleon is now included in the SAP NetWeaver Partner Solution catalog, and we plan to participate in SAPPHERE® and other marketing events to demonstrate the added value that Cameleon can bring to companies running SAP solutions.”

About Access Commerce

Access Commerce is a leading provider of Multichannel Commerce Solutions.

Access Commerce helps manufacturing, distribution, retail and service companies sell products and services through direct, indirect, call center and Internet sales channels. The Cameleon Commerce Suite drives business efficiency by aggregating, standardizing and syndicating product information across supply and demand chains. Cameleon simplifies key steps in the Lead-to-Order-to-After-Sales process by optimizing core business functions: e-commerce, electronic catalog and guided selling, product and service configuration, advanced pricing and promotions, quote and proposal generation, and order management. Employees, channel partners and customers use Cameleon to eliminate errors and non-value added activities, decrease cycle times and improve customer satisfaction, resulting in increased revenue and a reduction in sales and operational costs. Access Commerce customers include AREVA, Eaton Corporation, Eiffage Construction, Invacare, Leroy Merlin, Manitou, Mitsubishi Caterpillar Forklift Europe (MCFE), Perception, Perkins Engines, Saint-Gobain, Schneider Electric, ThyssenKrupp, Total and X-Rite.

Access Commerce is headquartered in Toulouse, France and Chicago, Illinois and has offices located in North America, France and Germany. Cameleon is a trademark of Access Commerce SA and may be registered in certain jurisdictions.

SAP, SAP NetWeaver, mySAP, xApps, SAPPHERE and other SAP products and services mentioned herein as well as their respective logos are trademarks or registered trademarks of SAP AG in Germany and in several other countries all over the world.
